## OBJECTIVE

Detail-oriented front end developer seeking opportunities where I can apply and hone my knowledge in designing and developing websites to deliver aesthetic, user-centric solutions in a collaborative environment.

## EXPERIENCE

**Home Clean Housekeeping** — *Freelance Developer*  
March 2021 - April 2021

Consulted the business owner to understand business identity, needs, and expectations.

Designed layout, components, and modified SVGs on Figma.

Styled markup using BEM methodology and component structured Sass.

Deployed on Netlify and integrated with GitHub for continuous builds.

## PROJECTS

**Eliza Meadows Photography** — *Front End Developer*  
April 2021

Experimented with locomotive-scroll JavaScript library enabling scroll-based user interactivity.

Ensured cross-browser compatibility and efficient code by leveraging Parcel to transform and bundle assets for production.

## EDUCATION

**University of Houston,  
Houston, Texas**

BBA in Management  
Information Systems

GPA: 3.5

2016-2020
